

Amendments to the Specification:

Please replace paragraph [90] with the following amended paragraph:

[90] In Fig. 4B, windows 340, 342, 344 and 346 provide the quad view as described above. Navigator box 360 now shows four ~~[[min]]~~ mini screens to correspond with each of the windows. Unlike the discussion above for quad views, the four windows of Fig. 4B are now used to view four different parts of a diagram so their image content is not the same.
